Pricing Notations

PRICE QUOTES DO NOT REFLECT ACTUAL TRANSACTIONS, BUT REPRESENT CURRENT MARKET CONDITIONS AS PERCEIVED BY SELECTED BUYERS AND SELLERS.

Unless otherwise indicated, prices are based on large transactions, involving truckloads or larger volumes. All prices are net of discounts for volume, cash, or prompt payment, if such are offered.

Price spreads can be attributed to localized price differences or differing sizes of purchase.

All prices are listed in U.S. dollars, on a spot, FOB basis at the producer's plant gate, terminal, or pipeline point unless otherwise indicated with the following:

- CFR:** Includes transportation to the destination port.
- DEL:** Delivered prices include transportation costs to the retail dealer's premises or the nearest accessible railhead.
- CIF:** The seller arranges for carriage of goods to destination.
- FCA:** The seller fulfills his obligation when goods are handed over and cleared for export into the charge of the carrier.
- Posted:** Prices posted at the manufacturing facility (producer) or mine location.
- Retail:** Retail prices, USD per short ton FOB originated at retail facilities. Quotes do not represent actual transactions, but rather market conditions as perceived by selected dealers. The price spreads shown are attributable to localized price difference.
- m:** Price updated on a monthly basis.
- c:** Contract price.
- st:** Short ton.
- mt:** Metric ton.
- lt:** Long ton.
- NA:** Prices not available or obtainable in the reporting period.
- CNY:** Chinese yuan.
- CAD:** Canadian dollar.
- EURO:** Currency of the Eurozone.
- BPL:** Bone phosphate of lime.
